CHICAGO PRODUCE MARKETS.

CHICAGO, Oct. 4 .- Special Telegram to THE Brg. |- With less than the average volume of transactions in futures and bearish outside influences the wheat market held steady and closed higher. December wheat opened at 82c and ranged for the first hour and shalf at 81%@83c low and 821/c high. Between 11 and 12 o'clock the price got down to 81% on confirmation of the reports from the northwest that buyers' limits had been reduced. In Duluth the paying price is off 136c on some of the grades, or 236 m3c under the market. In the country millers are p. ling 10 less for good grades and 2c less for poor wheat than the prices quoted previously. The movement in the northwest is heavy and receipts at all points east and west are 793,999 bushels, against shipments amounting to 190,544 bushels. On these figures and advices, and on the additional fact that the foreign markets are ranging from dull and quiet to weak, a selling fever set in and the local market sold down to 81%c. The receipt of the news that twelve boat loads were clearing from New York for South American ports strengthened the market about an hour before the close and ran prices up to Stoke, quite a spurt occurring right at the close. May opened at 84%c, was steady for a good while around 84 4 (4) 8436c, once touching 8436@85c, but subsequently receding to 84%c. This proved to be the bottom, however, and this delivery recovered along with near-by months, going to \$5 4c and closing at the top. October ranged at 80% (@80%c, and closed at 80%c. These figures record 34c improvement as compared with yesterday. Export clearances of flour and wheat are light from both coasts. Foreigners are of new business. Light local stocks discourage short selling, and the heavy movement of spring wheat, coupled with the absence of foreign demand, exert a restrain-ing influence on investors for the time being,

The market is rather narrow at present and fluctuations have ceased to be violent, though the feeling is decidedly nervous and unsettled. New York is a fair buyer on declines and the local bulls are far from being either powerless or extinct. They feel that sooner or later this year the old world will have to come to America for wheat and that investcome to America for wheat and that investments at and around the prices ruling are
more than reasonally safe, if well protected
and courageously stood by.

The corn market was devoid of interest,
being dull and for the most part inclining in
favor of the bears. The receipts exceeded
the istimates and the weather continued favorable to early good grading on new corn.
Export clearances from Atlantic ports were
light, but shipments from this point continue
on a liberal scale and the cash demand for
shipment was again good, although buyers

shipment was again good, although buyers took full edvantage of the weakeess in fu-tures to secure a corresponding reduction. The business done was chiefly of a local scalping character and was not heavy in amount. The foreign markets were quoted easier.
Onte ruled dull with a heaviness of unkertone, though there was not sufficient pres-sure on late futures to cause an actual de-cline. Arrivals amounted to 254 cars, and to-morrow's estimate is 250 cars. The market is weak in sympathy with corn and be-cause of heavy receipts, splendid weather and an appreciable let up in the urgency of the shipping demand. October receded a small fraction in price, the ruling quotations being 19% @19%c. May opened at 22%c, sold up on the "split" and back again, resting at the initial figure, which were the closing

quotations yesterday.

The provision trade was in a demoralized The injunction issued by Judge Sherpard was an unexpected proceeding, and as it revived interest in the October pork dea to the exclusion of everything else, business or me almost to a standstill. The injunction, its effect, and the best course to pursue under the circumstances were the subjects that commanded and received attention. In Occurrence of the circumstances were the subjects that commanded and received attention. tober pork a few trades were made at \$10.80 @11.00 and 500 barrels of October packed pork refused by clique houses were sold for "whom it may concern" under the rules at \$10.35 and \$10.50. Singer acted in the capacity of auctioneer in the disposal of this pork, while Hutchiason bought it. The houses re-fusing to accept the product on contracts were Counselman & Co. and W. G. McCorshick & Co. They doubtless acted under in-structions from their principals - the clique. The prices named were the only ones made during the session. At the close the open quotation for the October future was \$10.89. This was 10c higher than yesterday's closing. The general market was strong. It was dull, but there was no desire to crowd sales, and former prices were, as a rule, more than maintained. October short ribs and October and November lard were advanced be and January pork, lard and short ribs 2%c. No vember pork alone suffered a decline, ruling

CHICAGO, Oct. 4 .- | Special Telegram to THE BEE. | -CATTLE-The market was slow, weak and unsatisfactory from start to finish. and under these conditions it is plain to be seen that values ruled weak on best natives and unsettled on all other native classes. The run was divided at about 5,000 Texans, 2,500 rangers and 7,500 natives. For the week the receipts will in all probability be the largest ever known in this market. Exporters were judifferent buyers on account of lack of steamship room and dressed beef operators claim their chilling room space is crowded to the full capacity, hence they were not very hoeral buyers, some of the firms calling their men cut of the market at an early hour. Texans and rangers underwent littie or no change. Native butchers' stock, especially cows and canning stock, continues to sell at the lowest prices for the senson. Hous—Business was active, with an upture of 5@10, as compared with the lowest range yesterday, but toward the close values mased off a shade, closing about like the extreme close of yesterday. Packers paid \$4.00 @4.10 and shippers \$4.15@4.25. Light sorts for the first day in months sold a strong 10c fower and at an extreme range of \$4.85@4.50, with singe variety at \$4.70@4.75.

FINANCIAL.

New York, Oct. 4 .- | Special Telegram to THE BEE.]-STOCKS-The drive made at a few stocks late yesterday and the weakening of small holders before the close was a subject for much serious gossip last night. The trade credits Cammack with being the leader of the bear forces. It was apparent that the Chicago interests were on the selling side, temporarily it was thought, for a basis of the general unward movement which is expected to follow. Further orders for gold for export were given this morning, but it is thought this will end that phase of the matter. At the start to-day there was a renewal of the pressure upon Cotton Oil, Sugar Refineries and Atchison, but good support was met on all, which caused great activity in the stocks, while the general list was comparatively neglected. Under the pressure brought to bear first prices were all from 16 to 16 per cent lower, and Bugar Refineries were off 36 per cent, at 91. Trusts yielded immediately and Cotton Oil

the first few minutes, against 45% last evening, and after a raily to 43% retired to 4114. Sugar yielded to 90, but stocks in the regular list were stubbornly supported, and although there was heavy trading in Atchison, Missouri Pacific, St. Paul, and Burlington, none of them yielded more than small fractions, which were afterward regained, with something in addition. Manitoba was weak and again declined to 119 from 120 at the opening. The drive seemed to be over toward 10:40, and an improvament took piace all around. It proved to be a big day in stocks. Not only were still lower prices made in railroad stocks and shares after 12 o'clock, but before the close there was a general reaction, which surprised the bears at least. Atchison behaved better and after selling at 29% recovered to 30%. Burlington was the favorite Granger and sold up to 109% at the close. Others of this group closed 14 @14 per cent better for the day. Chicago Gas went to 55 and rallied to 57%. Cotton Oil touched 40%, or 5 points off, and recovered to 43% Sugar dropped to 8314 and closed at 87. This erratic action was demoralizing in railroad shares when low prices were reached. The decline in money rates from 10 and 12 po cent to 6007 per cent and the statement tha the government had taken \$5,000,000 i bonds, together with the feeling that the

was especially weak, dropping to 42% in

100	narket was oversold, caused a reaction. The total sales were 251,000 shares.

The situation was about the same as yes

terday, there being hardly cattle enough to make a market. There was not a good load of beeves in the yards, the receipts being made up mostly of butchers' stock, feeders, stock-ers, etc. The market was about steady on all kinds of cattle. Feeders sold quite well, the demand being good and the supply fair. Hogs.

SOUTH OMAHA NEWS.

The Emerald Ball. "It was the grandest of all," was the expression from every lip and on every countenance. When Shelany's orchestra struck up the grand march more than two score of couples joined in the beautiful line, while nany sat to see. Then the music was finer than usual, while the members of the various committees just outdid themselves in vicing with one another to entertain guests. They succeeded, for a better pleased gathering of friends never met in South nor parted with a more satisfied good night

About People Misses Katie Conway and Mollie and Annie Slattery, of Omaha, were guests of friends in the city and attended the Emerald Social club's dance.

Mesdames Balthas Jetter and John Saulter, who have been visiting friends in Florence, Wis., and Manistee, Micn., have returned home. Misses Moille, Marguerite and Nellie Cotter, of Omaha, were the guests of Mr.

and Mrs. S. D. Rynearson yesterday. Mrs. John Flynn is spending a few days visiting Plattsmouth friends.

D. C. Paxson, of the commission firm of Paxson, Shattuck & Co., of Chicago and Kansas City, is in the city, and the firm will soon open a commission house in the yards

Lyman Carpenter is home from Hay Mrs. Basler, of Hooper, who has been visiting her daughter and son-in-law, Mr. and Mrs. Charles C. Stanley, returned home vesterday.

Mr. and Mrs. D. C. Raukin and Miss Gussie Clark, of Tarkis, Mo., are the guests of Mrs. A. C. Wier and Miss Austa J. Clark. Mr. and Mrs. James Foley and Mr. and Mrs. Dorsey have gone to Washington, D. C. Shelly and Walter C. Kelly, of

Omaha, were the guests of South Omaha friends yesterday looking after political Mrs. Jeremian Callahan has returned from

Notes About the City. The South Omana Times printing office is being removed to the Opera House block. The published statement that Ernest Meyer, who runs a saloon for Jetter & Young, had some trouble, is incorrect. Mr. Meyer never had charge of a saloon for the

firm or for Mr. Jetter. William Myers, son of Isaac Myers, is ill with typhoid fever, E. S. Lambert, an insane man, was taken care of yesterday by the police and sent to

the county hospital. John Higgins, the man who made such a brutal and uncalled for assault on J. Henry Leechner, was fixed \$25 and costs by Judge King, and committed to jail in default of pay A glove contest is on the pugilistic tapis

for Sunday morning, between two local as-pirants for fame and fortune. Mayor Sloan has issued a call for the supervisors of election to meet him in the mayor's office Saturday forenoon, between the hours of 10 and 12 o'clock, to qualify. A penalty of \$50 may be imposed for failure to attend There appears to be no truth in the report that a man, in attempting to board the 8:20 nummy train at Oak street last night, was

If you are going east remember the "Rock Island Route" run the sleepers and chair cars of their solid vestibule train to and from the Omaha depot, leaving Omaha at 8:45 p. m., thus avoiding the transfer at Council Bluffs. Three solid trains daily. All chair cars are free. Dining cars on all through trains. Our trains make close connection with all eastern limited trains connecting in union depot at Chicago, avoiding a transfer across the city to parties enroute to New York, Boston and other eastern cities, "and everything a little better than other lines can offer." Some of Them Traversed Three Hun dred Feet on Ory Land. It was once my good fortune to witness a stampede of eels, says a writer in the Youth's Companion. A certain pond on the Maine coast was fed by a brook, but at high-tide water the ocean flowed in, so that it might be said to be salt at high tide and fresh or brack-

ish at low tide.
The conditions seemed to be particularly favorable for the propagation of eels, and the muddy bottoms was fairly alive with them, many of them of large size. As the tide ebbed many eels went

one evening I had occasion to cross the creek with a friend just at nightfall. The little brook had dwindled down to a mere stream, a foot or so wide, and as we stepped over it was seen to be black with cels. My companion inadvertently stepped in among them and at the instant the living river broke and a remarkable stampede oc-

the shore and in every direction though ultimately turning and making for the distant water. Some of them traversed, to reach it, over three hundred feet of dry land.
